

I-5 – South King County Projects Update

Edition 41, June 14, 2005

In this issue:

- Federal Way I-5 Lane, Ramp and Shoulder Closures
- Construction Update: I-5 S. 317th HOV Direct Access
- Construction Update: I-5 HOV Widening
- Seattle I-5 Weekend Pavement Replacement
- Highway Advisory Radio Updates
- About This E-mail

Federal Way I-5 Lane and Shoulder Closures

Up to three lanes of **northbound and southbound I-5** will be closed Monday through Thursday nights (June 13-16) from the Pierce County line to Military Road. The first lane will close at 6 p.m., and up to three lanes in each direction will be closed by 11 p.m. All northbound lanes will reopen by 5 a.m. each morning; all southbound lanes will reopen by 6 a.m. each morning.

Monday through Wednesday nights (June 13-15), we will close the **northbound on-ramp from eastbound Highway 18** between 9 p.m. and 5 a.m. A signed detour will be in place during the ramp closure.

On Wednesday night (June 15), we will close the **southbound exit to S. 320th** from 10 p.m. to 5 a.m. A signed detour will be in place during the ramp closure.

Drivers should expect **daytime I-5 shoulder closures** from S. 320th to the Pierce County line.

Construction Update: I-5 - S. 317th HOV Direct Access Military Road South to South 320th Street

At the east end of the new S. 317th bridge, crews are setting falsework (temporary construction supports) for the flared portion of the bridge, where the HOV direct access ramps will connect to the bridge in the I-5 median.

Crews are also finishing up the new pavement on southbound I-5 near the S. 320th exit so we can shift traffic off the temporary roadway. The traffic shift is currently scheduled for the end of June.

Last week, crews installed traffic signal loops on the S. 320th exit ramp, and we continue work on the large detention pond to the left of the ramp.

Please visit our Web site to view [new I-5 - S. 317th construction photos](#).

Construction Update: I-5 HOV Widening

South 320th Street to the King/Pierce County Line

Crews have been working hard on realigning the northbound and southbound I-5 lanes away from the median. We have been grinding the pavement in the far left northbound and southbound lanes to improve traction and remove bumps. Crews are also installing drainage and electrical systems and building detention ponds throughout the project area.

For more information on this project, please visit our [I-5 HOV Widening Web site](#).

Highway Advisory Radio Updates

Tune your radio to **AM 1520** to hear a new project update each week on I-5 in Federal Way. Questions or comments? E-mail Laura Johnson at JohnsoL@wsdot.wa.gov.
